RE: H2O Neutralizer
FCI Herlong - 5001015
Document No. GVL-0013

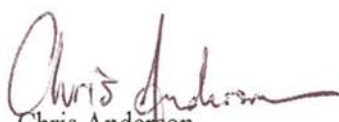

Dear Bob,

The H2O Neutralizer was a great resource here at the Federal Correctional Institution in Herlong. We used the neutralizer with No-Chlor (Ascorbic Acid) to lower the PH of our HVAC flushing water. See the attached proposed improvement for a more detailed description.

The H2O Neutralizer saved us approximately \$45,600, and it may save us more in the future. Through our Continuous Improvement Process, other jobs may want to use this equipment, as well.

Thank you for the opportunity to use the H2O Neutralizer. We look forward to using this equipment for other applications. Please, keep us posted on any new or updated items that become available.

Sincerely,
HENSEL PHELPS CONSTRUCTION CO.
